PVC STRIP CURTAIN

PVC strip curtains ,also known as vinyl strip curtains or PVC strip doors , are a type of industrial or commercial door solution made from flexible PVC (Polyvinyl Chloride) strips. These strips are transparent and come in various widths & thicknesses. PVC strip curtains are commonly used in a variety of applications to provide a barrier between different areas while still allowing visibility & easy passage for people, vehicles, or goods .

The main purpose of PVC strip curtains is to control environmental conditions, improve energy efficiency ,and enhance safety in different settings. Here are some common uses of PVC strip curtains.

- 1) Temperature Control
- 2) Insect and pest control
- 3) Dust & Debris Containment
- 4) Privacy & Visual Separation
